# R Markdown

#### **Documento**

#### Armando texto

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

#### Listas numeradas

Comidas favoritas:

- I. Numeradas
  - 1. Completos
  - 2. Tallarines
  - 3. Porotos
  - 4. Empanadas

### II. Letras

- a. Completos
- b. Tallarines
- c. Porotos
- d. Empanadas

#### III. Otros

- Completos
- Tallarines
- Porotos
- Empanadas

# Expresiones numéricas

Esto es un texto matemático:  $x^2 = 36$ 

La formula es así:

$$s = \sqrt{\frac{1}{N-1} \sum_{i=1}^{n} (x_i - \bar{x})^2}$$

# Chunks

# **Including Plots**

You can also embed plots, for example:

Note that the echo = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.
